

## The Autofilter by TIFONE

**Automatic ! Self-Cleaning ! Pressure Line Filter.**

***Unique and Absolute.***

- 1. Autofilter** is "auto-flushed", continuously, automatically. Therefore...
  - It is always totally clean and free.
- 2. Autofilter** is protecting all spray Nozzles
  - It also protects the Anti-drift nozzles, micro-holed.
  - It also protects the Mixers nozzle
- 3. Autofilter** replaces and the costly traditional pressure filters.
- 4. Autofilter** does not produce pressure loss on the line and at the nozzles.
- 5. Autofilter** unlike ordinary filters does not hold the debris.
  - But it sends them to the bypass.
  - That will pulverizes them, at their way back to the tank.
  - An they will no longer exist...
- 6. Autofilter** is always clean, and never to be emptied. Never.
  - Thus, it prevents annoying operation.
  - And any risk of pollution to the ground.

**Autofilter** is integrated into the pressure regulator Telecontrol Exact-TIFONE.

**Autofilter** is present on all TIFONE Sprayers, since 1975.

**Autofilter** is one of the many TIFONE technical prides.

**Autofilter** is **Made in Italy**.

**Autofilter is Maximum Performance (1.2.3.4.5.6.)**

**Autofilter is Technique (1.2.4.)**

**Autofilter is Advancement and Economies (1.3.)**

**Autofilter is Saving Time (6.)**

**Autofilter is Legality (6.)**
